

How can I update the Chrome extension "vREST Chrome Extension" manually?

By default chrome autoupdates its extensions at some interval. And between two intervals, if vREST throws an error of incompatible version of chrome extension, then extension need to be manually updated. To manually update the chrome extension, follow the steps below:

1. Open <chrome://extensions> page in new browser's tab (Google Chrome)
2. Enable the developer mode
3. Then "Update" button will appear, click on this button to update the extensions.
