

# Multiple Filters on Jira Attributes in Tree View

Links Explorer Traceability & Hierarchy offers filters on Issue type, Link type and Priority. These filters help user to refine their view according to their requirements

## Issue types Filter

This filter allows user to select/deselect multiple options like Epic, Story, Task, Sub-Task and other issue types available in Jira instance.

Activity Links Explorer ▾

The screenshot shows the 'Issue Types' filter dropdown menu. The menu is open, displaying a list of issue types with checkboxes. The 'Issue Types' button is highlighted in dark blue. To its right are 'Link Types' and 'Priority' buttons, both with dropdown arrows. Further right are two icons: a share icon and a help icon. The dropdown menu lists the following issue types, all of which are checked:

- New Feature
- Improvement
- Task
- Bug
- Sub-task
- Epic
- Story

The background shows a list of Jira issues with their status and titles:

- NEW** RC-2: Planning resumes
- PROGRESS** RC-3: Shortlisting candidates
- PROGRESS** RC-4: Review process
- DO** RC-5: Selection/ rejection of candidate

## Link types Filter

This filter allows user to select/deselect multiple link types. It offers options like Blockers, Cloners, Duplicates, Relates and other link types available in Jira instance.

Activity Links Explorer ▾
