

TC Results tab

Results tab shows the results of this test case for a test run. This tab contains the following three sub tabs as shown in below snapshot:

1. Test Results sub tab
2. Pre Hooks sub tab
3. Post hooks sub tab

The screenshot shows a web browser window with the title "1. Sample Test Case" and a URL "https://vrest.io/optimizory/m/VC/sample-test-case". The browser has tabs for "Details", "Request", "Response Validation", "Results", and "Variable Extractor". The "Results" tab is active, showing a "Test Results" sub-tab. The test result is "Passed" and the test run time is "3:08:25.085 pm, May 12, 2017". There are checkboxes for "Show variables used" and "Show Execution time details". The "Assertion Results" section lists six assertions, all of which passed. The first five assertions are: 1. Status Code - equalToNumber - `200` was a number equal to number `200`. 2. Response Time - lessThan - `401` was a number less than `600`. 3. Header - contains - [Content-Type] `application/json; charset=utf-8` contained `application/json`. 4. JSON Body - equals - [Path-`key2`] `value2` was equal to `value2`. 5. Text Body - Default Validator passed the assertion. Below the fifth assertion are buttons for "Diff Report", "View Expected vs Actual Content", "Edit Expected Body", and "Copy Actual to Expected Results". The sixth assertion is: 6. Text Body - Default Schema Validator passed the assertion.
